

ParentVUE ACCESS FORM

Flagstaff Unified School District #1 is pleased to provide parents online access to ParentVUE, a web-based (and mobile) application designed to help parents monitor the student's education by providing the latest academic and demographic information about the student. The ParentVUE portals are user-friendly and simple to navigate, and we anticipate that you and your student(s) will benefit from having this access. If you are the parent of more than one student attending a school within the Flagstaff Unified School District #1, you will have access to the information of each student within your single ParentVUE account. You do not have to create a new account each school year; the account is active until all students are out of the school district.

**NOTE: You must activate your account immediately.
Initial activation expires within 10 days.**

For account set-up, complete the information required below and return to your school.
