

Communication regarding Walk-In:

Great Public Schools are key to the success of our community, our economy, and the state of Arizona. The students of the Flagstaff Unified School District deserve a world-class education in order to be adequately prepared to become our future leaders, caretakers, innovators and citizens. Quality education, with sustainable and equitable funding, needs to be a top priority for our state. The FUSD Governing Board and staff are appreciative of the Flagstaff community as it has continually demonstrated its commitment to learning- investing time, expertise, resources, tax dollars and tax credits in our students' education.

The Flagstaff Unified District acknowledges the efforts of its teachers and staff to advocate for education funding. During this process we strive to maintain a focus on teaching and learning without compromising student and staff safety.

FUSD staff are planning to hold peaceful #REDforED Walk-ins at a number of schools on Wednesday, April 11. A Walk-in ends prior to the start of the school day when staff enter the building together and school carries on as normal. The purpose of a Walk-in is to raise awareness of educational issues and to demonstrate unity among educational professionals and community while allowing for education and services to students to continue without disruption.

If you have questions, please don't hesitate to contact your child's school.
