

Jane Gaun, M.Ed.

Coordinator, K-12 Mathematics

“If we only did things that were easy, we wouldn’t actually be learning anything. We’d just be practicing things we already knew.”

~ David Dockterman

Jane Gaun guides the FUSD Mathematics Department in the areas of curriculum, instruction and assessment by working with mathematics

leaders and teachers from across the district. This work includes; supporting a shared leadership structure in mathematics, coordination of teacher collaboration opportunities, making professional development opportunities available within and outside of the district and working with the Arizona Department of Education on standards and assessment revisions.

Jane Gaun graduated from Northern Arizona University with a Bachelor of Science degree in mathematics education and a Master of Education degree in secondary education. She has held several positions for FUSD since 1986 including middle school and high school teacher and Career Ladder PFE. Outside of FUSD Jane holds leadership positions in two professional organizations, the Arizona Association of Teachers of Mathematics and the Arizona Mathematics Leaders.

Jane likes to spend her free time hiking in the Mt. Elden area or in the company of her 3 children and her grandchildren. Jane grew up living on the Massachusetts coast and although she loves the mountains of the southwest, her favorite place is still the beach, any beach.
