What is Link Leadership

Coconino High School Link Leadership Transition Program is based on the belief of creating a safe and positive learning environment for all students by fostering healthy social behavior, academic success, responsibility towards self and others as well as individual accountability.

How does Link Leadership work?

Link Leader Mentors: junior and senior students serve as mentors to all freshman students for the entire school year as freshman students transition into high school.

Link Crew Teams: Link Leaders are assigned to a team of 12-18 freshmen whom they will give their guidance and assistance throughout the school year.

Freshmen 1st Day : includes the whole incoming class of freshman where after an opening assembly, freshmen students are divided into crews/teams which meet in separate classrooms for small group orientation activities by their Link Leaders. The focus of these activities include getting to know other students and learning strategies for being successful throughout their high school career.

What type of assistance do Link Leaders provide throughout the year?
