Good afternoon parents and families and welcome back to Cromer. We are very excited to introduce a new model for our school that some of our teachers will be using this year. We are transitioning to multi-age classrooms in many of our primary and some of our early intermediate classrooms. Our teachers worked hard last spring to design and develop our multiage classrooms. Multi Age classrooms are designed to support your students in a variety of ways. Some benefits include learning to collaborate with a variety of students, building cooperative learning skills, multi-age supports flexible grouping by needs, ability and interest, it lowers class sizes and allows students to get more support from their teachers. We are so excited to implement this model and if you have questions we will be happy to answer them at our Meet and Greet on Monday.
