<p><b>Purpose of the Standards Report:</b> This report provides a snapshot of your student's current progress toward mastery of the Arizona Academic Standards that have been taught to-date. Content areas (Math, Science, etc.), are divided into standards that identify what a student is expected to know and be able to do.</p> <p>Homework completion and work habits are reported separately from academic content. (See Behaviors and Skills to Promote Learning above.)</p>	<p><b>Proficiency Levels:</b> Your student will not receive a letter grade. The four levels on this standards report are based on key assignments, observations, and tests. Levels of proficiency reflect progress over time, from one quarter to the next. Emphasis is given to the most recent demonstration of knowledge and understanding in order to provide teachers, students and parents a longitudinal pattern of academic achievement.</p>	<p>As academic expectations and the complexity of learning increases, the Standards Report will reflect the new level of mastery; consequently, your student's level of proficiency may decrease, increase or stay the same from one quarter to the next.</p> <p>Exemplary (4) is <b>not</b> the equivalent of an A. In fact, a student who achieves <b>Proficient (3) is meeting grade-level expectations</b> for that specific set of standards.</p>
