

As an employer... why WBL?

- Builds a pool of skilled workers for the community, for a specific sector, and specific to employers
- Reduces training, recruitment, and employee turnover costs
- Become an involved educational stakeholder with an active, formative role in making education more relevant, practical, and beneficial
- Positive “press” for employers

How can I or my organization get involved?

Engaging hard working high school upperclassmen in work based learning isn't as hard or nebulous a process as it might initially seem.

Stated simply, an Arizona approved WBL experience requires only a few forms, and a commitment from all involved parties to purposefully guide a student through a structured work experience with specified goals. Of course, there are a few more details than that, but a simple phone call or e-mail to Tom Safranek, the FUSD Career Exploration Instructor / Coordinator, will get the ball rolling. **Contact information is provided on the back of this brochure.**

If you are interested in helping to mentor and develop the next generation of American workers - while building your talent pipeline, strengthening local education and economy, and generating positive community connections - please consider taking advantage of this win-win opportunity.

As FUSD continues to build and strengthen relevant, practical opportunities for technically skilled students, keep an eye on the College & Career Development webpage for new information, resources, etc.
